***Bradford County encourages all homes and businesses display a correct, visible street address. The address numbers must be clearly visible from the public or private right-of-way on the front of the building addressed. In addition, the building numbers shall be actual numerals and must be at least 4 inches tall and 1/2 inch wide and should be in a color contrasting to the background or building and preferably reflective. The numbers should be displayed on the front entrance of each principal building - and if it is not visible from the public or private driveway should be displayed at the top of the driveway and be attached to a post or fence so it can be clearly seen day or night. Make sure you keep your address clear and not obstructed by paint or shrubbery. Remember, if you can't see your address, neither can emergency responders!***
